There are three Directors in this part of the organisation. Our HQ is in Belfast with four geographically located Divisions, each headed by a Divisional Roads Manager, based in Belfast, Coleraine, Craigavon and Omagh. The Divisions

are supported by two in-house provider “units” Consultancy Services and Operations and Maintenance.

We play a significant role in promoting safe and sustainable travel and facilitating the safe and convenient movement of people and goods throughout the province and the safety of road users, through the delivery of road maintenance services and the management and development of the road network. We also inform departmental policy to ensure that measures to encourage safe and sustainable travel are practical and can be delivered.

Within the resources available, our key objectives are to:

- Plan, develop, manage and maintain, safe and sustainable transportation networks
- Develop and implement a revised organisational structure to ensure that Roads remains fit for purpose following recent substantial staff reductions.
- Ensure Roads communicate effectively with its customers to promote better understanding of service provision

Rivers

Rivers is headed by a Director, who reports to the Deputy Secretary, Roads and Rivers.

Rivers vision is ***“to manage flood risk to facilitate the social, economic and environmental development of Northern Ireland”***. The aims supporting the vision are ***“reducing risk to life and damage to property from flooding from rivers and the sea”*** and ***“undertaking watercourse and coastal flood management in a sustainable manner”***.

Functions

DfI is the statutory drainage authority for Northern Ireland. The Rivers Division leads in delivering this departmental responsibility.

Under the terms of the Drainage (Northern Ireland) Order 1973, the Department has discretionary powers to:

- Maintain watercourses and sea defences which have been designated by the Drainage Council for Northern Ireland.
- Construct and maintain drainage and sea defence structures.
- Administer advisory and enforcement procedures to protect the drainage function of all watercourses.

All executive functions arising from statutory remit under the Drainage Order are undertaken by this directorate and it also exercises DfI's responsibilities with regard to regulation of the water levels in Lough Neagh and Lough Erne (the latter in conjunction with the Electricity Supply Board in the Republic of Ireland). Rivers Directorate also contributes to wider Departmental policy on these functions.

Rivers Directorate also has responsibility for the management of the Lough Erne Estate.

The EU Directive on the assessment and management of flood risk (2007/60/EC), more commonly known as the Floods Directive, was transposed into Northern Ireland legislation in November 2009 and is known as 'The Water Environment (Floods Directive) Regulations (Northern Ireland) 2009.

Rivers Directorate supports DfI's role as the competent authority for the EU Floods Directive and is responsible for implementing its requirements. This requires a co-ordinated approach with other government departments and organisations.

Rivers Directorate also works closely with colleagues in the Office of Public Works in Ireland to fulfil the obligations of the Directive in relation to trans-boundary catchments.

Location

Rivers Headquarters is located in Loughry Campus in Cookstown. Rivers has regional offices in Omagh and Lisburn and sub-regional offices at Coleraine, Craigavon and Ballinamallard, outside Enniskillen.

Further information on Rivers Directorate can be found on <http://www.infrastructure-ni.gov.uk>

The competencies are intended to be discrete and cumulative, with each level building on the levels below i.e. a person demonstrating a competency at level 3 should be demonstrating levels 1 and 2 as a matter of course.

The Northern Ireland Civil Service competency framework can be accessed via www.nicsrecruitment.org.uk

GUIDANCE FOR APPLICANTS

INTERVIEW PREPARATION

If this is your first experience of a competence-based interview, bear in mind that it does not require you to:

- Talk through previous jobs or appointments from start to finish;
- Provide generalised information as to your background and experience; or
- Provide information that is not specifically relevant to the competence the question is designed to test.

A competence-based interview does however require you to:

- Focus exclusively, in your responses, on your ability to fulfill the competences required for effective performance in the role; and
- Provide specific examples of your experience in relation to the required competence areas.

In preparation for the interview you may wish to think about having a clear structure for each of your examples, such as:

- Situation – briefly outline the situation;
- Task – what was your objective, what were you trying to achieve;
- Action – what did you actually do, what was your unique contribution;
- Result – what happened, what was the outcome, what did you learn.

The panel will ask you to provide specific examples from your past experience to demonstrate the range of behaviours associated with the competences being assessed. You should therefore come to the interview prepared to discuss in detail a range of examples which best illustrate your skills and

abilities in each competence area. You may draw examples from any area of your work / life experiences.

For professional and technical posts, questions may be framed in the context of professional elements of the post.
