## **Agri-Food and Biosciences Institute Northern Ireland (AFBI)**

### **Communication between HRConnect and you**

HRConnect will issue electronically as many competition communications as possible, you should therefore check your email account to make sure that you don't miss any important communications in relation to this competition. There may, however, still be a necessity to issue some correspondence by hard copy mail.

## THE AGRI-FOOD AND BIOSCIENCES INSTITUTE

**AFBI is a leading provider of scientific research and services to government, non-governmental organisations and commercial companies.**

In line with AFBI's mission of "using scientific excellence to advance the local and global agri-food sector", the Institute has developed a reputation of being an influential, internationally recognised, centre for innovation in agri-food and biosciences providing high quality and locally relevant science. Our "2020 Strategy" includes plans for an ambitious programme of capital investment in AFBI's infrastructure, improved facilities at AFBI Hillsborough and a new veterinary sciences building, which will give us one of the most modern laboratory and ancillary estate infrastructures of any agri-food research institute in Europe.

As the Northern Ireland government's main research and statutory testing provider in the areas of agri-food, fisheries and the environment, AFBI plays a major role in the Northern Ireland knowledge economy. AFBI's scale, relationships with a wide range of international research organisations and close links with local industry mean that it is ideally placed to carry out research that is of both global and local impact. AFBI's science is outcome-driven and aimed at solving important practical problems for a wide range of local, national and international customers in the public and private sectors. Our staff carry out world class scientific research, surveillance, and analytic and diagnostic testing for a wide range of customers in the fields of animal health and welfare, sustainable agricultural systems, plant science, food innovation and safety, environmental protection, fisheries and aquatic ecosystems, and agricultural and rural economics.

AFBI was established on 1 April 2006 as a non-departmental public body and is sponsored by Department of Agriculture, Environment and Rural Affairs (DAERA). It is responsible for the provision of statutory and scientific programmes in the areas of agri-food, animal and plant health, fisheries and the environment, providing access to specialist expertise and providing facilities to industry and public sector bodies for contracted scientific services. AFBI has a staff complement of approximately 650 people, with a budget of approximately £55million. Details of AFBI's most recently published income and expenditure are available on its website under [2015/16 annual report and accounts](#).

The Institute has two science divisions, Sustainable Agri-Food Sciences and Veterinary Sciences Divisions, which are supported by the Finance and Corporate Affairs Division.

AFBI is located on seven sites across the province, with its headquarters at Newforge Lane, Belfast. The AFBI sites are at Newforge Lane (1), Stoney Road, Stormont (2), Crossnacreevy (3), Hillsborough (4), Loughgall (5), Omagh (6) and Bushmills (7), along with a sea going research vessel, the RV Corystes (8).

## ABOUT THE VETERINARY SCIENCES DIVISION

The Institute has two scientific divisions, Sustainable Agri-Food Sciences Division (SAFSD) and Veterinary Sciences Division (VSD), which are supported by the Finance and Corporate Affairs Division (FCAD). VSD currently employs approximately 260 veterinary, scientific, technical and support staff across its four Branches (Bacteriology, Chemical and Immunodiagnostic Sciences, Disease Surveillance and Investigation, and Virology).

Major programmes of work within VSD are animal health and welfare, and food safety. VSD investigates diseases of farm animals, poultry and fish and provides a specialist animal disease diagnostic service to the agricultural industry. It carries out statutory work and provides an emergency response capability on behalf of government. It also conducts underpinning research and development (R&D) on animal diseases and food safety issues relevant to the local industry. This work is funded by DAERA, other government bodies and the private sector. More specifically, VSD supports government policy and industry by providing laboratory testing and scientific expertise in:

- Emergency responses and contingency planning for epizootic disease outbreaks and food-chain problems
- Targeted (active) surveillance for animal diseases, including local, national and EU disease control and eradication schemes
- Scanning (passive) surveillance for animal disease agents, including zoonotic infections
- Chemical and microbiological food surveillance, including veterinary drug residue testing
- Underpinning R&D in animal diseases and food safety
- Provision of specialist advice to government and industry
- Technology transfer to industry

An outline of the Bacteriology, CISB and Virology branches is included below and a more detailed description of DSIB covered in the subsequent section.

### **Bacteriology Branch**

Bacteriology Branch is located in a modern building which houses suites of laboratories at bio-containment levels 2 and 3. The Branch work programme includes statutory, analytical and research work on the major bacterial pathogens of animal and public health significance. Much of this work underpins important DAERA animal disease control programmes in areas such as bovine tuberculosis, brucellosis and salmonellosis. Other work areas include food-borne zoonoses, antimicrobial resistance and paratuberculosis. The skill base within the Branch comprises traditional and specialist bacteriology methods, molecular diagnostics, test development, molecular epidemiology, experimental infection models, immunology, genetics, experimental design, wildlife ecology, veterinary epidemiology and biometrics. Multi-disciplinary approaches to bovine tuberculosis and the detection and control of *Campylobacter* are currently major research focuses of the Branch. Bacteriology Branch incorporates the National Reference Laboratories (NRL-

UK-NI) for Brucellosis and the NRL-UK-NI for *Salmonella*. Laboratory tests in support of statutory disease control are accredited and audited to ISO17025 and projects are managed and audited to ISO9001 certification standard. The Branch has a major international reputation for research and innovation, and works with a range of external industry and academic collaborators. Research funding sources include DAERA, the research councils, and the EU.

### **Chemical and Immunodiagnosics Sciences Branch (CISB)**

The Chemical and Immunodiagnostic Sciences Branch undertakes a wide programme of mainly statutory work in the animal disease and chemical residues/contaminants areas. The Branch has EU NRL status for illegal veterinary drug residues, and provides screening and confirmatory analysis for a wide range of veterinary drug residues, marine biotoxins, pesticides, mycotoxins and heavy metals. Tests are carried out for residues in meat products from cattle, sheep, pigs, poultry, shellfish and fish, milk and eggs, as well as animal feeding-stuffs. This work is supported by basic and strategic research that has resulted in the development of novel analytical methods for a wide range of compounds. A large volume of serological testing is carried out in CISB on behalf of DAERA and industry customers. This work includes serological testing in support of DAERA's brucellosis eradication programme, surveillance for exotic diseases such as enzootic bovine leucosis, bluetongue virus and highly pathogenic avian influenza, equine viral serology, avian viral and *Mycoplasma* serology, and testing required for the export/import of animals. The Branch also encompasses a transmissible spongiform encephalopathy (TSE) testing unit. The Branch provides DAERA and FSA with an emergency response in the event of outbreaks of major epizootic diseases, marine biotoxin incidents, and misuse of veterinary drugs, pesticides or chemical contaminants.

### **Virology Branch**

The work of the Virology Branch is aimed at improving the diagnosis and control of viral diseases of farmed animals (pigs, poultry, cattle, sheep and aquaculture) in support of DAERA policy objectives on animal health and welfare of N. Ireland livestock. Through its research programme, the Branch aims to develop or improve diagnostics for a range of virus infections, particularly exotic viruses which pose a potential threat to the local industry; to provide or improve vaccines for the control of viral diseases; and to investigate new disease syndromes of potential viral etiology, with the aim of providing new diagnostics and control measures. The Branch has responsibility for the molecular confirmation of major infectious / epizootic diseases in animals and provides a range of support services to other branches such as tissue culture and the animal services unit. Virology staff provides expert scientific advice to DAERA on animal health issues including the statutory testing programmes for animal diseases, emerging animal health risks and emergency responses to epizootic disease incidents. The skill base within the Branch comprises traditional and specialist virology methods, molecular diagnostics, test development, experimental infection models, immunology, experimental design and access to veterinary epidemiology and biometrics. The Branch has a major international reputation for research and

innovation, and works with a range of commercial, government and university research organisations. Research funding sources include DAERA, commercial companies, research councils, and the EU.

## **ABOUT THE DISEASE SURVEILLANCE AND INVESTIGATION BRANCH**

The Disease Surveillance and Investigation Branch (DSIB) is one of four branches within the Veterinary Science Division (VSD). The main remit of the branch is the provision of a passive animal disease surveillance service for Northern Ireland on behalf of DAERA, along with the provision of associated specialist advice. The branch is, however, increasingly involved in commercial animal disease testing and also undertakes applied research typically in association with other AFBI branches.

The Branch has a multidisciplinary team of ~70 staff including eight veterinary pathologists / diagnosticians and operates from two locations: AFBI Stormont and AFBI Omagh. Expertise is maintained across a wide range of scientific disciplines including pathology, histopathology, bacteriology, virology, parasitology and biochemistry, with additional specialist backup from other VSD branches.

The animal disease diagnostic services provided by the DSIB from the AFBI Stormont and Omagh laboratories safeguard animal and public health by identifying the causes of disease in submitted material and promote the competitiveness of the agri-food industry. Surveillance for notifiable, zoonotic and emerging diseases forms an important part of this work. A comprehensive range of laboratory tests is available to assist in the diagnosis of animal disease and to provide detailed information on the health status of herds and flocks. This activity provides DAERA with a programme of animal disease surveillance by monitoring for epizootic diseases, new or emerging diseases or changes in patterns of endemic diseases. The work also assists veterinary surgeons in facilitating the rapid diagnosis and investigation of disease outbreaks and the implementation of effective treatment, control and preventative measures. Specialist advice on animal diseases is given to the agricultural industry and veterinary profession. These activities underpin the animal health status of Northern Ireland.

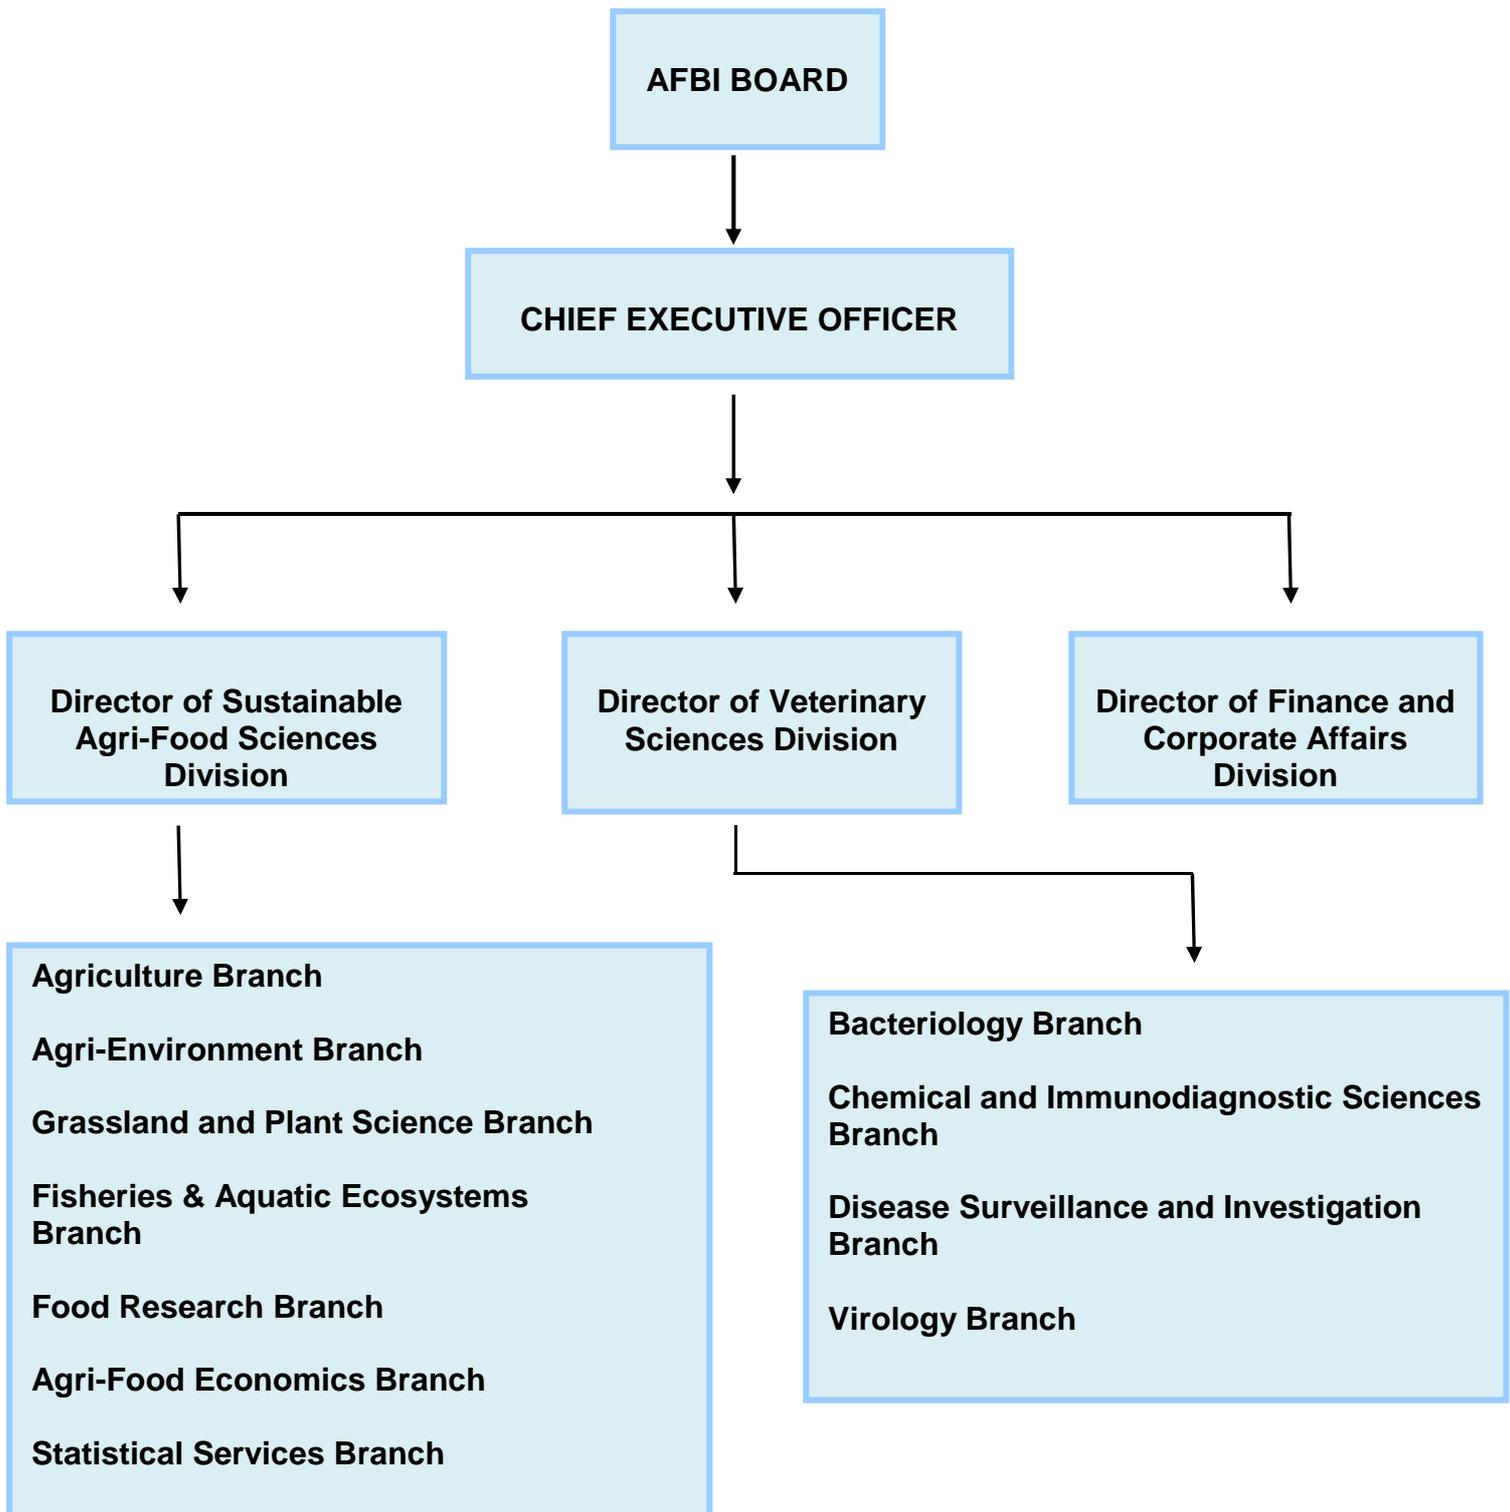

DSIB operates the AFBI Cattle Health Scheme, which is the CHeCS licenced, voluntary scheme covering the most economically important endemic diseases of cattle. The Branch also undertakes a high volume of commercial disease testing, including BVD testing in support of eradication programmes in NI and elsewhere.

DSIB undertakes statutory work for DAERA including the pathological diagnosis of bovine tuberculosis (bTB), bovine spongiform encephalopathy (BSE) and scrapie, *Echinococcus multilocularis* and monitoring for enzootic bovine leucosis (EBL). The branch is involved in the preparedness to deal with an epizootic disease outbreak. Forensic examinations of animals are carried out on behalf of DAERA, the local Councils and the Police Service of Northern Ireland (PSNI).

DSIB produces a range of disease surveillance and other outputs. These include refereed scientific publications, quarterly animal disease diagnostic surveillance reports which are published in the Veterinary Record and the

annual All-island Animal Disease Surveillance Report which is produced in conjunction with colleagues from DAFM.

## TOP MANAGEMENT STRUCTURE OF AFBI

## **JOB DESCRIPTION**

There is currently one full-time position to be filled. A reserve list will exist and will be held for a period of 12 months from the date of interview, to cover any further vacancies which may arise.

The successful candidate will be an employee of AFBI.

### **Grade**

The Head of DSIB post is analogous to a Grade 6 post in the Northern Ireland Civil Service pay scales.

### **Salary**

The salary for the post will be within the range £56,252 - £63,346 (under review), within which pay increases will be on an incremental basis provided staff reports are satisfactory.

Starting salary will normally be at the minimum of the scale except for existing AFBI staff for whom starting salary may be determined by either promotion or re-grading terms if these are more favourable.

Consideration may be given to starting at a higher point on the salary scale for applicants with additional relevant experience and/or qualifications. The relevance and extent of the additional experience will be determined by AFBI at the time of offer of appointment.

### **Annual Leave**

In addition to the usual public and privilege holidays, there is an annual leave allowance of 25 days, increasing to 30 after five years satisfactory service.

### **Location**

The successful candidate will normally be based at Veterinary Sciences Division (VSD), Stoney Road, Stormont, Belfast but will also have management responsibility for AFBI's veterinary laboratory at Omagh, Co. Tyrone. They may also be expected to work at other AFBI sites in Northern Ireland as required.

### **Working Hours**

The successful candidate will normally be required to work 5 days each week, totalling 37 hours. On occasions the duties may include some evening and weekend working.

## **Travel**

The post will entail some travel throughout Ireland, the UK and internationally and for this reason, the successful applicant will require access to a form of transport which will permit them to meet the requirements of the post in full.

## **Further Information**

Further Information about the post may be obtained from Philip White, on 028 9025 5657.

If you have any queries about the recruitment process you should contact HRConnect on 0800 1300 330, or email [recruitment@hrconnect.nigov.net](mailto:recruitment@hrconnect.nigov.net).

## KEY DUTIES/RESPONSIBILITIES

The Head of Disease Surveillance and Investigation Branch will report to the Director of the Veterinary Sciences Division.

Main activities of the post holder are:-

1. Overall leadership and management of the Disease Surveillance and Investigation Branch, which has a staff complement of approximately 70 and a resource (non-staff) budget of ~£750k.
2. Leading the provision of an animal disease diagnostic, surveillance and investigation service for Northern Ireland to required standards and timescales, including monitoring for new and emerging diseases, responding to incidents of notifiable and / or zoonotic infections.
3. Delivering commercial animal disease diagnostic services to the agri-food industry in a cost-effective and efficient manner, and identifying opportunities to further grow commercial services and income.
4. Provision of specialist advice to AFBI senior management on the diagnosis and control of animal diseases, liaison with and advising DAERA, other government departments, and bodies external to government, including farming and industry groups.
5. Effective delivery of statutory disease testing work within the remit of the Branch including bovine tuberculosis histopathology and other disease surveys.
6. Managing the veterinary diagnostic input to the VSD emergency response capability for outbreaks of animal diseases which pose a threat to the health and welfare of Northern Ireland livestock or public health.
7. Identifying relevant research opportunities, leading and managing research projects aimed at improving the diagnosis and control of animal diseases, and collaborating with other AFBI branches on research initiatives.
8. Leadership and management of test accreditation (ISO 17025), health & safety, biocontainment and associated issues within the Branch.
9. Leading branch input into capital, IT and other development issues including the Animal Health Sciences building and replacement laboratory information management system (LIMS) projects
10. Development of the DSIB business plan and budget within the overall context of the VSD and AFBI plans, and the management of DSIB, budget, business objectives and targets, including responsibility for staff management and development.

11. Leading Branch input to the production of relevant disease surveillance outputs, publications and press releases; undertake representational duties at local, national and international level.

**Occasional out-of-hours working may be required, particularly in relation to emergency situations.**

**This list is not exclusive and the successful candidate will be required to carry out other duties as allocated by management.**

## **ELIGIBILITY CRITERIA**

Applicants must, by the closing date for applications, have:

1. Membership or Fellowship of the Royal College of Veterinary Surgeons (RCVS)

### **OR**

a veterinary degree entitling the candidate to register as a Member of the RCVS. If not already a Member or Fellow of the College, the successful candidate must become a member of the RCVS before taking up the appointment.

2. At least five years post-graduate veterinary experience with demonstrable experience of farm animal production, farm animal practice, animal health and herd health management.
3. Have at least three years' experience in one or more of the following areas:
  - a. Demonstration of a proven management track record founded within a target based professional services or similar business / organisation within the veterinary services sector.

### **AND / OR**

- b. Demonstration of proven experience of leading, coordinating and conducting animal disease diagnostic, surveillance or research work in an animal disease diagnostic laboratory, university, commercial laboratory or research organisation.

## **SHORTLISTING**

Applicants should be aware that after an eligibility sift, should it be necessary to shortlist candidates to go forward to interview, the following shortlisting criterion will be applied:

1. The quality and range of experience presented at eligibility criteria 2 and 3 relative to the remit and requirements of the post

In providing evidence for each of these eligibility criteria and shortlisting criteria it will be essential that candidates draw upon specific examples of work they have undertaken to illustrate the extent to which they possess the experience and skills required.

Applications will also be considered from applicants with relevant formal qualifications considered by the selection panel to be of an equivalent or higher standard to those stated.

**Relevant** or **equivalent** qualifications: give the type of qualification and date awarded (the date awarded is the date on which you were notified of your result by the official awarding body). If you believe your qualification is equivalent to the one required, the onus is on you to provide the panel with details of modules studied etc. so that a well-informed decision can be made.

**Please note:**

- **You should ensure that you provide evidence of your experience in your application form, giving length of experience, examples and dates as required.**
- **It is not sufficient to simply list your duties and responsibilities.**
- **The panel will not make assumptions from the title of the applicant's post or the nature of the organisation as to the skills and experience gained.**
- **If you do not provide sufficient detail, including the appropriate dates needed to meet the eligibility criteria, the selection panel will reject your application.**
- **ONLY the details provided by you in your application form (the employment history and eligibility criteria) will be provided to the selection panel for the purpose of determining your eligibility for the post.**

## PERSON SPECIFICATION

Candidates will be expected to demonstrate the skills and competencies set out in the Essential Criteria. In addition, they will also be required to demonstrate competency in Professional Knowledge & Skills pertaining to this post together with the skills and competencies set out in the Northern Ireland Civil Service (NICS) competency framework at **Level 4** for the purpose of personal and professional development.

### **What is the NICS competency framework?**

The competency framework sets out how all NICS employees should work. It puts the Civil Service values of integrity, honesty, objectivity and impartiality at the heart of everything they do, and it aligns to the three high-level leadership behaviours that every civil servant needs to model as appropriate to their role and level of responsibility: Set Direction; Engage People and Deliver Results. Competencies are the skills, knowledge and behaviours that lead to successful performance. The framework outlines ten competencies, which are grouped into three clusters as set out below. The competencies are intended to be discrete and cumulative, with each level building on the levels below i.e. a person demonstrating a competency at level 3 should be demonstrating levels 1 and 2 as a matter of course.

The Northern Ireland Civil Service competency framework can be accessed through [www.nicsrecruitment.gov.uk](http://www.nicsrecruitment.gov.uk).

**It is important that all candidates familiarise themselves with the competency framework as this forms the basis of the assessment / interview criteria as outlined below. You should refer to the behaviours listed under level 4 of the relevant competence areas.**

**The selection process will include a presentation and a competence based interview.**

## **PRESENTATION**

Before the competence based interview, candidates will be required to deliver a presentation, lasting no more than 5 minutes, the subject of which will be provided to candidates in the invitation to interview letter.

Candidates should fully prepare their presentation in advance of the interview and no preparation time will be provided on the day of interview. Your presentation should be delivered via PowerPoint and you will be asked to submit it to HRConnect by a specific date prior to your interview. Full details will be provided should you be invited to interview.

Following the presentation, the panel may elect to ask questions on the presentation.

The presentation will be used to partly assess the Professional Knowledge and Skills competence.

## **INTERVIEW CRITERIA**

### **1. Professional Knowledge & Skills**

**Marks available: 30      Minimum standard: 18**

### **2. Seeing the Big Picture**

**Marks available: 15      Minimum standard: 9**

### **3. Making Effective Decisions**

**Marks available: 10**

### **4. Delivering Value for Money**

**Marks available: 10**

### **5. Managing a Quality Service**

**Marks available: 10**

## **6. Leading & Communicating**

**Marks available: 15      Minimum standard: 9**

## **7. Building Capability for All**

**Marks available: 10**

**Total marks available – 100**

**Candidates must achieve at least an overall pass mark of 60 and the minimum standard for each of the competences outlined above.**

## **COMPETENCE BASED INTERVIEWS**

Selection panels will design questions to test the applicant's knowledge and experience in each of the above areas and award marks accordingly.

## **INTERVIEWS**

It is intended that interviews for these post will take place in AFBI, Newforge Lane, Belfast on Monday 11<sup>th</sup> June 2018.

## **INTERVIEW GUIDANCE FOR APPLICANTS**

**If this is your first experience of a competence-based interview, bear in mind that it does not require you to:**

- Talk through previous jobs or appointments from start to finish;
- Provide generalised information as to your background and experience; or
- Provide information that is not specifically relevant to the competence the question is designed to test.

**A competence-based interview does however require you to:**

- Focus exclusively, in your responses, on your ability to fulfill the competences required for effective performance in the role; and
- Provide specific examples of your experience in relation to the required competence areas.

**In preparation for the interview you may wish to think about having a clear structure for each of your examples, such as:**

- Situation – briefly outline the situation;
- Task – what was your objective, what were you trying to achieve;
- Action – what did you actually do, what was your unique contribution;
- Result – what happened, what was the outcome, what did you learn.

The panel will ask you to provide specific examples from your past experience in relation to each of the competences. You should therefore come to the interview prepared to discuss in detail a range of examples which best illustrate your skills and abilities in each competence area. You may draw examples from any area of your work / life experiences.

## SELECTION PROCESS

### The Merit Principle

Appointments to AFBI are made under the 'merit principle', where the best person for any given post is selected in fair and open competition.

### Making your application

The application form is designed to ensure that applicants provide the necessary information to determine how they meet the competition requirements and the eligibility/shortlisting criteria.

### Guidance for Applicants

- The space available on the application form is the same for all applicants and must not be altered.
- We will not accept CVs, letters, additional pages or any other supplementary material in place of or in addition to completed application forms.
- Applicants must complete the application form in either typescript font size 12, or legible, block capitals using black ink.
- Applicants must not reformat application forms.
- Information in support of your application will not be accepted after the closing date for receipt of applications.
- HRConnect will not examine applications until after the closing deadline;
- Do not use acronyms, complex technical detail etc. Write for the reader who may not know your employer, your branch or your job.
- Write down clearly your personal involvement in any experience you quote. Write "I" statements e.g. I planned meetings, I managed a budget, I prepared a presentation. It is how you actually carried out a piece of work that the panel will be interested in.
- The examples you provide should be concise and relevant to the criteria. This is very important as the examples which you provide may be checked out at interview and you may need to be prepared to talk about these in detail if you are invited to interview. It is your *unique* role the panel are interested in, not that of your team or division.

### Application Form Submission

- Please refer to the Candidate Information Booklet before completing an application.
- **All** parts of the application form **must** be completed by the applicant before this application can be considered. Failure to do so may result in disqualification.
- All applications must be received by the advertised closing date. Late applications or applications received by fax or by email will not be accepted. Applicants using Royal Mail should note that 1<sup>st</sup> class mail does not guarantee next day delivery. It is also the responsibility of the applicant to ensure that sufficient postage has been paid to return the form to

HRConnect. HRConnect will not accept any application where they are asked to pay any shortfall in postage.

- Only the employment history, eligibility and shortlisting sections will be made available to the panel.
- Applicants are encouraged to submit online applications wherever possible. However, all requests for hard copy application packs are welcomed and all applications will be treated equally regardless of whether they are hard copy or online.
- When completing the online application, your information is saved as you move through the pages. You may leave the application at any time, providing you have clicked on the 'Save & Continue' button. Once your application has been submitted the option to edit will no longer be available.
- Please note - the session timeout for the online application is 40 minutes, if you do not save or change page within this time you will automatically be logged out and any unsaved work will be lost.
- Please do not attempt to reformat application forms as this will result in disqualification.

### **Changes in personal circumstances**

Please ensure HRConnect are informed immediately of any changes in personal circumstances.

### **Communication between HRConnect and you**

HRConnect will issue electronically as many competition communications as possible, you should therefore check your email account to make sure that you don't miss any important communications in relation to this competition. There may, however, still be a necessity to issue some correspondence by hard copy mail.

### **Transgender Requirements**

Should you currently be going through a phase of transition in respect of gender and wish this to be taken into consideration in confidence to enable you to attend any part of the assessment process please contact HRConnect. Details of this will only be used for this purpose and do not form any part of the selection process.

### **Further appointments from this competition**

Where a further position in AFBI is identified which is considered broadly similar to that outlined in this candidate information booklet, consideration will be given to filling the position from this competition. The merit list resulting from this competition will be valid for a period of up to one year.

## **Disability Requirements**

We will ask on the application form if you require any reasonable adjustments, due to disability, to enable you to attend any part of the assessment process. Details of any disability are only used for this purpose and do not form any part of the selection process. If you have indicated on your application that you have a disability and are successful in the selection process and are being considered for appointment, you may be required to outline any adjustments you consider necessary in order for you to take up an appointment. If you wish to discuss your disability requirements further, please contact HRConnect.

## **Equal Opportunity Monitoring Form**

**Please note, this form is regarded as part of your application and failure to complete and return it will result in disqualification.**

For guidance on completing the Monitoring Form and to read the NICS Equal Opportunities Policy Statement to which AFBI adheres please refer to page 25. Applications are particularly welcomed from Roman Catholics and Females as these groups are currently under-represented within AFBI.

## **AFBI is an Equal Opportunities Employer.**

All applications for employment are considered strictly on the basis of merit.

## **Assessment Information**

It is HRConnect policy that all candidates invited to attend for assessment bring sufficient documentation to satisfy the eligibility/shortlisting criteria and the Nationality and Vetting requirements. Further details regarding acceptable documentation will be issued with an invitation to attend for assessment.

You should ensure that these documents are readily available.

## **Employment Requirements**

HRConnect must ensure that you are legally entitled to work in the United Kingdom.

Entry to the United Kingdom is controlled under the Immigration Act 1971. Everyone who does not have the right of abode is subject to immigration control. You should check whether there are any restrictions on your stay or your freedom to take or change employment before you apply for a post. If you are invited to interview we will ask you to provide documentation confirming that you are entitled to work in the UK, under the terms of the Asylum and Immigration Act 1996.

Advice on entitlement to work may be obtained from the Home Office website, [www.ind.homeoffice.gov.uk](http://www.ind.homeoffice.gov.uk).

## **Nationality Requirements**

There are no nationality requirements for AFBI posts.

## **Vetting Procedures**

### 1. Baseline Personnel Security Standard

For this post the level of vetting is a Baseline Standard. For this check you will be required to provide the following:

- a) Your passport OR
- b) A document verifying your permanent National Insurance number (e.g. P45, P60 or National Insurance card) AND your birth certificate which includes the names of your parents (long version).
- c) Other acceptable documents are listed on [www.ind.homeoffice.gov.uk](http://www.ind.homeoffice.gov.uk).
- d) A specimen signature at any assessment event and have this validated against passport, driving licence, application form etc.

We will organise a Criminal Record Check on all applicants to be carried out by AccessNI. The category of AccessNI check required for this post is:

### **Basic Disclosure Certificate**

You should not put off applying for a post because you have a conviction. We deal with all criminal record information in a confidential manner, and information relating to convictions is destroyed after a decision is made.

For more information, the address of the AccessNI website is: <http://www.accessni.gov.uk/>. Those applicants who are being considered for appointment will be contacted by HRConnect, normally after interview/test, and will be asked to complete the AccessNI application form. Please note that a request to complete this form should not be seen as a guarantee of an offer of appointment. Failure to complete the application form and return it within the specified time will be regarded as 'no longer interested in the position' and your application will be withdrawn.

Criminal Record information is subject to the provisions of the Rehabilitation of Offenders (NI) Order 1978.

### **Order of Merit**

The selection panel will assess candidates against the interview criteria. Those candidates who meet the required standard(s) and pass mark will be deemed suitable for appointment. The selection panel will then list those suitable for appointment in order of merit with the highest scoring applicant ranked first. HRConnect will allocate a candidate (or candidates) to a vacancy (or vacancies) in the order listed. The order of merit is valid for one year.

## GENERAL INFORMATION

### **Pensions**

New entrants who join the Agri-Food and Biosciences Institute (AFBI) are eligible to join the NICS pension scheme.

Further details can be found on the Principal Civil Service Pensions Scheme (Northern Ireland) website at:

[www.finance-ni.gov.uk/civilservicepensions-ni](http://www.finance-ni.gov.uk/civilservicepensions-ni)

or

if you are unable to access the website please contact Civil Service Pensions as follows:

Civil Service Pensions  
Waterside House  
75 Duke Street  
Londonderry  
BT47 6FP  
Tel: 02871 319000  
Email: [cspensions.cpg@dfpni.gov.uk](mailto:cspensions.cpg@dfpni.gov.uk)

### **Feedback**

AFBI is committed to ensuring that the processes used to recruit and select staff are fair. We are consequently committed to providing feedback in respect of decisions taken in determining eligibility/shortlisting as well as at interview. Feedback in respect of eligibility/shortlisting will be communicated automatically to those candidates who fail to satisfy any criteria. All requests for feedback are welcome.

**Fax:** 028 9024 1665

## Equality, Diversity and Inclusion

### Policy Statement

The Northern Ireland Civil Service Equality, Diversity and Inclusion Policy statement to which AFBI adheres is set out below:

“The Northern Ireland Civil Service (NICS) has a strong and clear commitment to equality, diversity and inclusion. It is our policy that all eligible persons shall have equal opportunity for employment and advancement in the NICS on the basis of their ability, qualifications and aptitude for the work. Everyone has a right to equality of opportunity and to a good and harmonious working environment and atmosphere where they are treated with dignity and respect. We aim to provide opportunities for all sections of the community and continue to strive to create an inclusive working environment in which difference is recognised and valued. Bringing together people from diverse backgrounds and giving each person the opportunity to contribute their skills and experience will help us to respond more effectively to the needs of the people we serve”.

We all want to work in an harmonious workplace where we feel valued, respected and included, irrespective of gender, including gender reassignment, marital or civil partnership status, race/ethnic origin, religious belief or political opinion, disability, having or not having dependants, sexual orientation and age.

In order to provide a high quality service to the people of Northern Ireland the NICS needs to attract, recruit, develop and retain the very best people at all levels. Our approach is based on three key principles:-

**Equality** – we promote equality of opportunity by seeking to remove barriers, eliminating discrimination and ensuring equal opportunity and access for all groups of people.

**Diversity** – we accept each person as an individual. Our success is built on our ability to embrace diversity – and we believe that everyone should feel valued for their contributions. By working together we will deliver the best possible service for our staff, customers and stakeholders.

**Inclusion** – we create a working culture where differences are not merely accepted, but valued; where everyone has the opportunity to develop in a way that is consistent with, and adheres to NICS values of impartiality, honesty, integrity and objectivity. Our aim is to be an organisation where people feel involved, respected and connected to our success.

It is the responsibility of all staff to be aware of and to apply this policy. Both Management and Trade Union Side are fully committed to the policy and will endeavour to ensure its full implementation.

## **Equal Opportunities Monitoring**

Equality monitoring is the process of collecting, storing and analysing information that is relevant to and necessary for the purpose of promoting equality of opportunity between different categories of persons. This section sets out what information is collected, the reasons for doing so and what it is used for.

You should note that the Monitoring Form is regarded as part of your application and failure to fully complete and return it will result in disqualification. The Monitoring Form will be processed separately and neither the form nor the details contained in it will be available to those considering your application.

Monitoring equality and diversity in the workforce enables the NICS to examine how our employment policies and processes are working and to identify areas where these appear to be impacting disproportionately on certain groups of staff.

### **Legislative Context**

This section explains the reasons for gathering this information by setting out the legislative background.

#### **Gender**

The Sex Discrimination (NI) Order 1976 (as amended) makes it unlawful to discriminate against an individual on the grounds of his or her sex. Information on gender is also provided in the annual statutory monitoring the, as required by the Fair Employment and Treatment (NI) Order 1998. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between men and women generally.

#### **Age**

The Employment Equality (Age) Regulations (NI) 2006 make it unlawful for employers and others to discriminate on grounds of age. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons of different ages and age groups.

#### **Community Background**

The Fair Employment and Treatment (NI) Order 1998 outlaws discrimination on the basis of religious belief or political opinion. The Order also requires the NICS to submit an annual monitoring return to the Equality Commission for Northern Ireland. This takes the form of a statistical return, providing information on the gender and community background composition of all people working in the NICS at the 1st January each year.

Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons of different religious belief and political opinion. Following guidance issued in July 2007 by the Equality

Commission for NI the NICS has decided to use “community background” information as a proxy for political opinion.

### **Disability**

The Disability Discrimination Act 1995 (the DDA) provides protection for disabled persons against discrimination on the grounds of disability.

The DDA defines disability as a “physical or mental impairment, which has a substantial and long term adverse effect on a person’s ability to carry out normal day-to-day activities.”

This definition is interpreted as follows:-

**Physical Impairment:** this includes, for instance, a weakening of part of the body (eyes, ears, limbs, internal organs etc) caused through illness by accident or from birth. Examples would be blindness, deafness, paralysis of a leg or heart disease.

**Mental Impairment:** this includes mental ill health and what is commonly known as learning disability, and social functioning.

**Substantial:** put simply, this means the effect of the physical or mental impairment on ability to carryout normal day to day activities is more than minor or trivial. It does not have to be a severe effect.

**Long-term adverse effect:** the effect has to have lasted or be likely to last overall for at least 12 months and the effect must be a detrimental one. A person with a life expectancy of less than 12 months is of course covered if the effect is likely to last for the whole of that time.

**A normal day to day activity:** this is something which is carried out by most people on a fairly regular and frequent basis such as washing, eating, catching a bus or turning on a television. It does not mean something so individual as playing a musical instrument to a professional standard or doing everything involved in a particular job.

### ***What sort of effect must there be?***

The person must be affected in at least one of the respects listed in the DDA: mobility; manual dexterity; physical co-ordination; continence; ability to lift, carry or otherwise move everyday objects; speech; hearing or eyesight; memory or ability to concentrate, learn or understand; ability to take part in normal social interaction and form social relationships; or perception of risk of physical danger.

### ***What happens if the effects are reduced by medication or other treatment?***

Broadly speaking, the effects that matter are those that would be present if there was no medication or treatment taking place. The exception is people who wear spectacles or contact lenses when what matters is the effect that remain while the spectacles or contact lenses are being used.

***Are there any types of condition covered by special provisions in the DDA?***

Yes, because some people with particular conditions might not otherwise be counted as disabled. These are provisions covering:

Recurring or fluctuating conditions such as arthritis, where the effects can sometimes be less than substantial, which are treated as continuing to have a substantial adverse effect so long as that effect is likely to recur;

Conditions which progressively deteriorate, such as motor neuron disease, which count as having a substantial effect from the first time they have any effect at all on ability to carry out normal day to day activities even if it is not substantial, so long as there is eventually likely to be a substantial adverse effect; and

People with cancer, HIV, or multiple sclerosis are deemed to be disabled people from the point of diagnosis, regardless of whether or not they have any symptoms.

***Are any conditions not covered?***

Yes, the following conditions specifically do not count as impairments:

Addiction to or dependency on alcohol, nicotine or any other substance (unless resulting from the substance being medically prescribed);

Seasonal allergic rhinitis (e.g. hay fever) unless it aggravates the effect of another condition;

Tendency to set fires, or steal, or physically or sexually abuse other persons;

Exhibitionism and voyeurism;

Severe disfigurements consisting of tattoos, non-medical body piercing or attachments to such piercing are not treated as having substantial adverse effects.

***What if someone has recovered from a disability?***

Much of the DDA also applies to people who have had a disability in the past (for example, someone who was disabled by mental ill health) but have now fully recovered. People who were registered disabled under the Disabled Persons (Employment) Act (NI) 1945 both on 12 January 1995 and 2 December 1996 will be regarded as having had a disability in the past if they do not in any case fall within the definition of the DDA.

Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons with a disability and persons without.

***Race***

The Race Relations (NI) Order 1997 makes it unlawful to discriminate on grounds of colour, race, nationality or ethnic or national origin. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons of different racial group(s).

***Sexual Orientation***

The Employment Equality (Sexual Orientation) Regulations (NI) Order 2003 makes it unlawful for employers and others to discriminate on the grounds of sexual orientation. In order to monitor the effectiveness of NICS policies

information is gathered on sexual orientation. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons of different sexual orientation.

### **Marital Status**

The Sex Discrimination (NI) Order 1976 (as amended), makes it unlawful to discriminate against married persons and civil partners in employment. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons of different marital status.

### **Dependants Status**

Section 75 of the Northern Ireland Act 1998 requires public authorities, in carrying out their functions in NI, to have due regard to the need to promote equality of opportunity between persons with dependants and persons without.

### **Confidentiality of Monitoring Information**

The following general principles will be applied to all individual monitoring information:-

- individual monitoring information will be afforded a high degree of confidentiality;
- misuse of monitoring information will be viewed as a disciplinary offence; and
- individual monitoring information will only be disclosed to members of staff or officials of a trade union, members of which are employed in the NICS, if it is necessary to do so for the appropriate discharge of their duties and responsibilities.

In addition to the above internal safeguards on the protection of equality monitoring information generally, the confidentiality of community background monitoring information is protected through Regulations made under the Fair Employment and Treatment (Northern Ireland) Order 1998 (FETO). These make it a criminal offence, subject to specific exceptions, for an employer or employee to disclose information on the community background of an individual which has been obtained, or is used, for the purpose of monitoring under FETO.

As with other forms of personal data, the obtaining, use, storage and disclosure of monitoring information is covered by the Data Protection Act 1998 (DPA). Monitoring information is held on computer and is protected by a high level of security. Access to this data is restricted to those NICS staff, employees of HRConnect and Trade Union officials whose duties make it necessary for them to have it. Misuse of monitoring information is viewed as a disciplinary offence.
