BACKGROUND

The Department of Agriculture, Environment and Rural Affairs (DAERA) has responsibility for food, farming, environmental, fisheries, forestry and sustainability policy and the development of the rural sector in Northern Ireland. The Department assists the sustainable development of the agri-food, environmental, fishing and forestry sectors of the Northern Ireland economy, having regard for the needs of the consumers, the protection of human, animal and plant health, the welfare of animals and the conservation and enhancement of the environment.

DAERA provides a Knowledge Advisory Service for farmers and growers and a Veterinary Service for administration of animal health and welfare. The Department's College of Agriculture, Food and Rural Enterprise (CAFRE) delivers training and further and higher education courses in the agri-food sector. DAERA is responsible to the Department of the Environment, Food and Rural Affairs (DEFRA) in Great Britain for the administration of schemes affecting the whole of the United Kingdom. The Department also oversees the application of European Union agricultural, environmental, fisheries and rural development policy to Northern Ireland.

Following Exit from the EU on 31 January 2020, the Department is now working to develop an understanding of the opportunities, challenges and risks of EU transition, including implications of the Northern Ireland Protocol, and continuing to work collaboratively with our partners and stakeholders in Northern Ireland and colleagues in the other UK Administrations.

A further key role for CAFRE is the provision of technical support to DAERA and other Government Departments. Details of each aspect of work are set out below:

Further and Higher Education programmes

The current portfolio of full-time and part-time courses offered by CAFRE includes:

- Level 2 through to Honours Degree in Agriculture, (including Land-based Engineering at Level 3).

Benchmarking

CAFRE has developed a range of benchmarking tools for farmers and growers. These provide participants with a standard way of analysing performance data using on-line databases thus enabling them to compare their performance with other similar businesses. Based on this information and supported by CAFRE Advisers, they can set realistic targets and monitor the progress of their business.

Rural Development Programme (RDP) 2014-2020

CAFRE has responsibility for the development and delivery of the Knowledge Transfer elements of the Farm Business Improvement Scheme, which is funded under the RDP. Four knowledge transfer programmes are being

delivered, namely Business Development Groups, Farm Family Key Skills, Farm Innovation Visits and Technology Demonstration Farms.

CAFRE Library functions

CAFRE is a knowledge based organisation which depends on the supply of information in order to function efficiently and effectively. Each of the CAFRE campuses has a dedicated library resource and the librarians play a vital role in supporting staff and students to access information through books, journals, newspapers, reports and online databases. The Libraries are major information resources promoting and encouraging the use of their lending, reference and enquiry services. In addition, the Libraries subscribe to a number of online databases and make extensive use of Web based information and learning resources. The Libraries also provide a Virtual Learning Environment for students. The integration of appropriate electronic education material into the Learning Resource Centre is an ongoing objective. Using the common NICS Library Management System, library users are able to access a web version of the NICS library catalogue and a range of on-line databases and e-journals from their desktop.

NICS COMPETENCY FRAMEWORK

The selection process will assess candidates against the NICS competency framework at level 3.

The NICS competency framework sets out how all NICS employees should work. It puts the Civil Service values of integrity, honesty, objectivity and impartiality at the heart of everything they do, and it aligns to the three high-level leadership behaviours that every civil servant needs to model as appropriate to their role and level of responsibility: Set Direction; Engage People and Deliver Results.

Competencies are the skills, knowledge and behaviours that lead to successful performance. The framework outlines ten competencies, which are grouped into three clusters. The competencies are intended to be discrete and cumulative, with each level building on the levels below i.e. a person demonstrating a competency at level 3 should be demonstrating levels 1 and 2 as a matter of course.

The Northern Ireland Civil Service competency framework can be accessed via www.nicsrecruitment.org.uk

It is important that all candidates familiarise themselves with the competency framework as this forms the basis of selection process. Should you require assistance in accessing the competency framework please contact HRConnect.

GUIDANCE FOR APPLICANTS

INTERVIEW PREPARATION

If this is your first experience of a competence-based interview, bear in mind that it does not require you to:

- Talk through previous jobs or appointments from start to finish;
- Provide generalised information as to your background and experience; or
- Provide information that is not specifically relevant to the competence the question is designed to test.

A competence-based interview does however require you to:

- Focus exclusively, in your responses, on your ability to fulfill the competences required for effective performance in the role; and
- Provide specific examples of your experience in relation to the required competence areas.

In preparation for the interview you may wish to think about having a clear structure for each of your examples, such as:

- Situation – briefly outline the situation;
- Task – what was your objective, what were you trying to achieve;
- Action – what did you actually do, what was your unique contribution;
- Result – what happened, what was the outcome, what did you learn.

The panel will ask you to provide specific examples from your past experience to demonstrate the range of behaviours associated with the competences being assessed. You should therefore come to the interview prepared to discuss in detail a range of examples which best illustrate your skills and

abilities in each competence area. You may draw examples from any area of your work / life experiences.

For professional and technical posts, questions may be framed in the context of professional elements of the post.
