BACKGROUND

Our vision – A globally competitive economy that works for everyone

Our mission is to develop and implement agile policies and programmes which promote a competitive, sustainable and inclusive economy through investment in: skills; economic infrastructure; research and innovation; and business development.

Our mission is underpinned by seven strategic objectives:

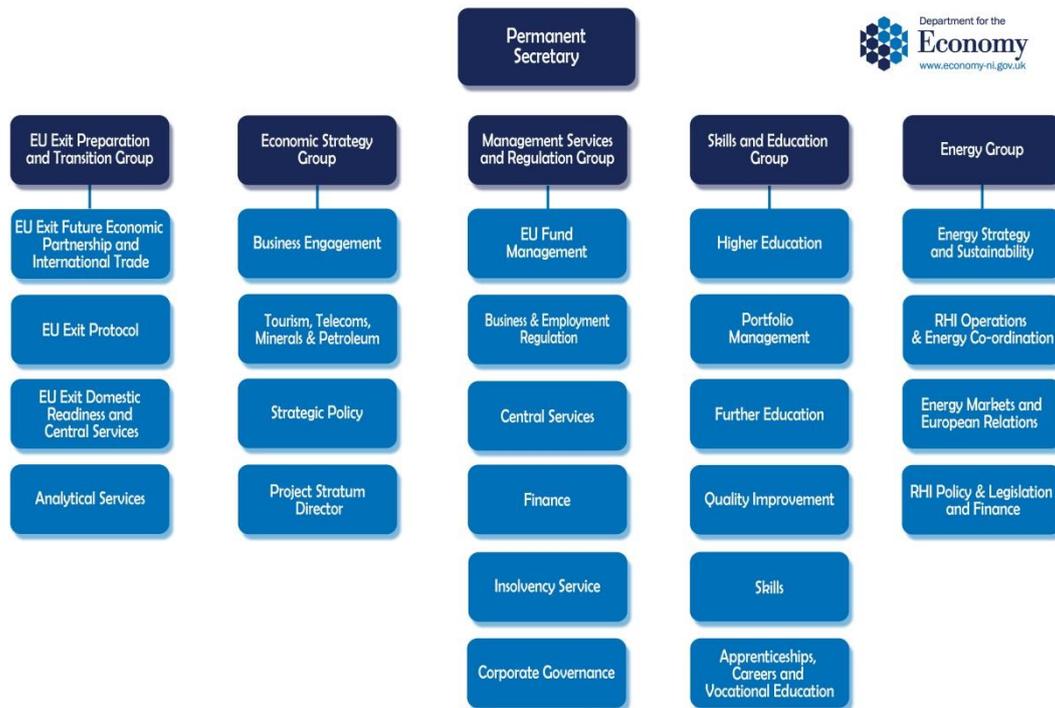

1. Accelerate innovation and research.
2. Enhance education, skills and employability.
3. Drive inclusive, sustainable growth.
4. Succeed in global markets.
5. Build the best economic infrastructure.
6. Deliver a regulatory environment that optimises economic opportunities for business and commerce, while also protecting consumers and workers.
7. Ensure the Department has effective governance, including programme and project management arrangements, and manages its resources, both financial and staff.

The Department for the Economy (DfE) was established in May 2016 and its responsibilities include:

- economic policy, including specific areas like Energy, Tourism and Telecoms;
- the operation of a range of employment and skills programmes;
- oversight and funding of the further and higher education sectors;
- various aspects of employment law; and
- the management and operation of various EU funding programmes.

DfE has over 1,000 staff at various different grades working across Northern Ireland who work under one of five distinct Groups each led by a Deputy Secretary. These Groups, in turn, manage a wide range of Arms Length Bodies. The Top Management Team comprises of:

However under the Communications Act 2003, DfE has limited powers to intervene in the market, but intervention has to be undertaken with caution to avoid distortion of the market and comply with EU broadband and competition regulations/guidance.

Since 2007, DfE Telecoms Branch has channelled over £77m of public investment into initiatives to encourage private sector upgrade to broadband networks, primarily in rural areas and where the market alone would not invest.

The work of the Branch is split into two areas: intervention delivery and strategic affairs.

The current intervention, **Project Stratum** (delivering broadband capacity throughout Northern Ireland), seeks to utilise £165m of available public funding to extend access to 30 Mbps or greater broadband service to some 79,000 premises across primarily rural areas of Northern Ireland. This project is at mid-procurement with contract award expected in the autumn. The Branch will become responsible for the management of the contract including vouching and verification.

In developing economic policy the post holder has a central role influencing Departmental strategy and direction through the Minister, Permanent Secretary, Top Management Team colleagues and the Senior Civil Service Group, some of whom will hold varying and opposing views. In undertaking this role, the post holder needs to build a consensus, exercise influence on other Departments which will involve persuasion and negotiation skills to ensure that needs and objectives are delivered.

The post holder will be responsible for oversight of five of the Department's Delivery Partners and will have to influence them to be compliant with high standards of corporate governance, financial management and control, and delivery against objectives.

- Action – what did you actually do, what was your unique contribution;
- Result – what happened, what was the outcome, what did you learn.

The panel will ask you to provide specific examples from your past experience to demonstrate the range of behaviours associated with the competences being assessed. You should therefore come to the interview prepared to discuss in detail a range of examples which best illustrate your skills and abilities in each competence area.
