The Department also oversees the application of European Union agricultural, environmental, fisheries and rural development policy to Northern Ireland.

Following Exit from the EU on 31 January 2020, the Department is now working to develop an understanding of the opportunities, challenges and risks of EU transition, including implications of the Northern Ireland Protocol, and continuing to work collaboratively with our partners and stakeholders in Northern Ireland and colleagues in the other UK Administrations.

Knowledge and technology transfer equips those working in the agri-food industry with the knowledge, skills and experience to adopt appropriate technologies and systems within their businesses from which economic, environmental, health and safety and animal welfare benefits will accrue.

Benchmarking

CAFRE has developed a range of benchmarking tools for farmers and growers. These provide participants with a standard way of analysing performance data using on-line databases thus enabling them to compare their performance with other similar businesses. Based on this information and supported by CAFRE Advisers, they can set realistic targets and monitor the progress of their business.

Rural Development Programme (RDP) 2014-2020

CAFRE has responsibility for the development and delivery of the Knowledge Transfer elements of the Farm Business Improvement Scheme, which is funded under the RDP (£28m). Two training programmes are being delivered, namely Business Development Groups and Farm Family Key skills. Within the Business Development Groups programme 3,000 farmers and growers work together in groups using a peer-learning approach to enhance their technical knowledge and business planning skills. In addition, through Farm Family Key Skills training, over 15,000 participants will have the opportunity to improve their skills in key areas of farm business management such as Health and Safety, IT, Animal Health and Business Planning. CAFRE also has responsibility for planning and delivery of 2 RDP Innovation Schemes. These are the Innovation Technology Evidence and Demonstration Scheme (ITEDS) and the Farm Innovation Visits Scheme (FIVS). These aim to encourage uptake of innovative technologies on Northern Ireland Farms. DAERA provides a business development service for farmers and growers and a veterinary service for administration of animal health and welfare. The Department's College of Agriculture, Food and Rural Enterprise (CAFRE) delivers training and further and higher education courses in the agri-food sector. Competencies are the skills, knowledge and behaviours that lead to successful performance. The framework outlines ten competencies, which are grouped into three clusters. The competencies are intended to be discrete and cumulative, with each level building on the levels below i.e. a person demonstrating a competency at level 3 should be demonstrating levels 1 and 2 as a matter of course.

The Northern Ireland Civil Service competency framework can be accessed via www.nicsrecruitment.org.uk

It is important that all candidates familiarise themselves with the competency framework as this forms the basis of selection process. Should you require assistance in accessing the competency framework please contact HRConnect.

GUIDANCE FOR APPLICANTS

INTERVIEW PREPARATION

If this is your first experience of a competence-based interview, bear in mind that it does not require you to:

- Talk through previous jobs or appointments from start to finish;
- Provide generalised information as to your background and experience; or
- Provide information that is not specifically relevant to the competence the question is designed to test.

A competence-based interview does however require you to:

- Focus exclusively, in your responses, on your ability to fulfill the competences required for effective performance in the role; and
- Provide specific examples of your experience in relation to the required competence areas.

In preparation for the interview you may wish to think about having a clear structure for each of your examples, such as:

- Situation – briefly outline the situation;
- Task – what was your objective, what were you trying to achieve;
- Action – what did you actually do, what was your unique contribution;
- Result – what happened, what was the outcome, what did you learn.

The panel will ask you to provide specific examples from your past experience to demonstrate the range of behaviours associated with the competences being assessed. You should therefore come to the interview prepared to discuss in detail a range of examples which best illustrate your skills and

abilities in each competence area. You may draw examples from any area of your work / life experiences.

For professional and technical posts, questions may be framed in the context of professional elements of the post.
