The Department of Finance (DoF) provides the NICS and other public bodies with funding, professional services and business support systems, helping them to deliver excellent, value for money public services. Key roles of the DoF include:

- Making the way the NICS works more open and transparent and promoting the release of government data in an accessible format.

The Senior Principal Economist will be one of two Grade 6's that report directly to the Head of the NICS Economist Profession and will lead a team of Economists in delivering on SPDs business objectives which include: Economic briefing, research, analysis and policy advice to the Minister of Finance, Senior Officials, the Executive and Assembly; Providing expenditure appraisal guidance, advice and training; public sector pay policy; engaging with Treasury and other stakeholders on a range of cross-cutting taxation, banking, and other economic matters.

KEY RESPONSIBILITIES

This post is a critical leadership role within the Economist Profession, overseeing the work of a professional team in DoF. The main duties and responsibilities include:

- As a senior leader and manager in the Profession, being a role model, exemplifying the values, building capability and inspiring staff to achieve better outcomes for customers, and contributing to shaping the culture of the organisation.

NICS COMPETENCY FRAMEWORK

The selection process will assess candidates against the NICS competency framework at level 4.

The NICS competency framework sets out how all NICS employees should work. It puts the Civil Service values of integrity, honesty, objectivity and impartiality at the heart of everything they do, and it aligns to the three high-level leadership behaviours that every civil servant needs to model as appropriate to their role and level of responsibility: Set Direction; Engage People and Deliver Results.

Competencies are the skills, knowledge and behaviours that lead to successful performance. The framework outlines ten competencies, which are grouped into three clusters. The competencies are intended to be discrete and cumulative, with each level building on the levels below i.e. a person demonstrating a competency at level 3 should be demonstrating levels 1 and 2 as a matter of course.

The Northern Ireland Civil Service competency framework can be accessed via www.nicsrecruitment.org.uk

It is important that all candidates familiarise themselves with the competency framework as this forms the basis of selection process. Should you require assistance in accessing the competency framework please contact HRConnect.

GUIDANCE FOR APPLICANTS

INTERVIEW PREPARATION

If this is your first experience of a competence-based interview, bear in mind that it does not require you to:

- Talk through previous jobs or appointments from start to finish;
- Provide generalised information as to your background and experience; or
- Provide information that is not specifically relevant to the competence the question is designed to test.

A competence-based interview does however require you to:

- Focus exclusively, in your responses, on your ability to fulfill the competences required for effective performance in the role; and
- Provide specific examples of your experience in relation to the required competence areas.

In preparation for the interview you may wish to think about having a clear structure for each of your examples, such as:

- Situation – briefly outline the situation;
- Task – what was your objective, what were you trying to achieve;
- Action – what did you actually do, what was your unique contribution;
- Result – what happened, what was the outcome, what did you learn.

The panel will ask you to provide specific examples from your past experience to demonstrate the range of behaviours associated with the competences being assessed. You should therefore come to the interview prepared to discuss in detail a range of examples which best illustrate your skills and

abilities in each competence area. You may draw examples from any area of your work / life experiences.

For professional and technical posts, questions may be framed in the context of professional elements of the post.
