Candidate Information Booklet

IRC286598
Higher Scientific Officer – Researcher Sustainable Alternative Pig Production
21 Month Fixed Term Contract

Agri-Food and Biosciences Institute Northern Ireland (AFBI)

Completed Application Forms must be returned to HRConnect no later than 12 noon (UK time) on Friday 13th January 2023.
Communication between HRConnect and you

HRConnect will issue electronically as many competition communications as possible, you should therefore check your email account to make sure that you don’t miss any important communications in relation to this competition. There may, however, still be a necessity to issue some correspondence by hard copy mail.

ABOUT THE AGRI-FOOD AND BIOSCIENCES INSTITUTE

As the Northern Ireland Government’s main research and science provider in the areas of agri-food, fisheries and the environment, AFBI’s science plays a crucial role in providing the underpinning statutory and analytical testing, research and development work, emergency response and expert scientific advice required to support the work of the Department of Agriculture Environment and Rural Affairs (DAERA) and the wider agri-food industry. AFBI’s key science themes represent Leading improvements in the agri-food industry; Protecting animal, plant and human health; and Enhancing the natural and marine environments.

In line with AFBI’s vision of “Advancing the local and global agri-food sectors through scientific excellence” the Institute seeks to be an influential, internationally recognised, centre for research and scientific services in the agri-food and marine sectors. AFBI’s science is outcome-driven and aimed at solving important practical problems for a wide range of local, national and international funders in the public and private sectors. Our staff carry out world class research, surveillance, and analytic and diagnostic testing for a wide range of funders in the fields of animal health and welfare, sustainable agricultural systems, plant science, food innovation and safety, environmental protection, fisheries and aquatic ecosystems, and agricultural and rural economics.

AFBI’s current Corporate Plan outlines our strategy and ambitions for the period 2018 to 2022. It sets out the 3 strategic outcomes we aim to deliver for society, the economy and the environment, as well as industry and customers in an ever more efficient and effective manner. The plan, demonstrates the unique multidisciplinary strength of AFBI and how we will work with partners from science, government, industry and farmers to provide a positive impact. These achievements will be underpinned by attracting and developing excellent staff and building fit for purpose physical infrastructure.

AFBI’s ‘Science Impacts 2020’ publication outlines key outcomes from AFBI science. Notably over the past 5 years AFBI have delivered approximately four million animal, plant and food safety tests to support sales from the NI agri-food industry to the value of £3.2 billion. In that period, AFBI have also delivered >90 evidence and innovation projects for DAERA, ~400 peer review scientific publications, over two thousand outreach activities, and have secured £44m of external research grants and contracts working with partners from across 35 countries. We are also actively developing strategic alliances with other research organisation and dissemination partners to facilitate a pipeline of research from fundamental to applied and onward application to ensure the impact of AFBI Science.

In order to fulfil these outcomes for our funders and stakeholders across society, the economy and the environment, AFBI enjoys access to highly instrumented laboratory, field and ship based scientific platforms. Furthermore, we are working closely with our sponsor department to take forward an ambitious programme of capital investment in AFBI’s infrastructure.
including a new animal health sciences building at AFBI Stormont, enhanced research farm facilities at AFBI Hillsborough and a replacement sea-going research vessel.

As the Northern Ireland government’s main research and statutory testing provider in the areas of agri-food, fisheries and the environment, AFBI plays a major role in the Northern Ireland knowledge economy. AFBI’s scale, relationships with a wide range of international research organisations and close links with local universities and industry mean that it is ideally placed to carry out research that has both global and local impact. AFBI’s science is outcome-driven and aimed at solving important practical problems for a wide range of local, national and international funders in the public and private sectors. Our staff carry out world class scientific research, surveillance, and analytic and diagnostic testing for a wide range of customers in the fields of animal health and welfare, sustainable agricultural systems, plant science, food innovation and safety, environmental protection, fisheries and aquatic ecosystems, and agricultural and rural economics.

AFBI’s main work areas are aimed at leading improvements in the agri-food industry; protecting animal, plant and human health; and enhancing the natural and marine environments. We have a staff complement of approximately 650 people, with an annual turnover of approximately £60 million. Details of AFBI’s most recently published income and expenditure are available on its website.

AFBI is located on seven sites across the province, with its headquarters at Newforge Lane, Belfast.
AFBI SITES

AFBI is located on seven sites across Northern Ireland with its Headquarters at Newforge Lane, Belfast.

In addition AFBI has a dedicated marine research vessel, the RV Corystes, based in Port of Belfast.

- Newforge Lane (Headquarters)
- VSD Stormont
- Hillsborough
- Crossnacreevy
- Loughgall
- Omagh
- Bushmills
SUSTAINABLE AGRI-FOOD SCIENCES DIVISION (SAFSD)

SAFSD currently employs approximately 320 scientific, technical and support staff across its seven scientific based branches.

As such SAFSD is a highly multi-disciplinary division with a key focus on livestock, plant and in general agriculture production, its impact on the environment and the economy and the sustainable management of aquatic systems both in land and at sea. This multi-disciplinary team can explore all aspects of the food supply chain taking research from the soil through to the plant to the animal and the resultant food quality and nutritional value, while also working with colleagues at VSD to ensure animal health and food safety is optimised.

SAFSD utilises a highly instrumented platform across livestock, land management, environmental management as well as marine work to service its main deliverables of research and innovation and monitoring and surveillance. SAFSD also collaborates extensively with other research organisations, industry and government departments locally, nationally and internationally. A key drive within SAFSD is to produce high quality peer review publications while also ensuring the research conducted has impact through an active dissemination programme.

LIVESTOCK PRODUCTION SCIENCES BRANCH (LPSB)

The Livestock Production Sciences Branch is one of seven branches within the Sustainable Agri-Food Sciences Division in AFBI and aims to address the challenges of increasing livestock productivity while reducing its environmental impact and maximising animal health and welfare. The branch is primarily based at AFBI Hillsborough, with a presence at AFBI Loughgall. As such the work of the branch has direct access to a significant farm platform, operating under commercial like conditions but highly instrumented to enable the completion of state of the art research across dairy, beef, sheep and pig production. The aims of the Branch are to develop and sustain an integrated research effort with national and international recognition in sustainable livestock production and welfare systems through development of innovative sustainable practices to drive a competitive industry and provision of scientific evidence for government policy and industry initiatives.

The main science disciplines of the branch represent nutrition, welfare, production, genetics and increasingly data sciences. However the branch works extensively with a range of scientists across AFBI and other academics to include food, economics, microbiology, epidemiology for example so that the work of the Branch links strategic, fundamental science to systems level research and takes an innovative approach to ensure the impact of its research is realised through the completion of large-scale applied research studies undertaken on farms across Northern Ireland. The work of the branch is highly collaborative with industry as well as NI, UK and EU academic partners.
The work within Livestock Production Sciences ultimately addresses the requirements of the Department of Agriculture, Environment and Rural Affairs (DAERA), other government departments, NGO’s and industry within a policy environment of ever increasing emphasis on promoting competitiveness in the marketplace, food security, delivering an improved environment and addressing animal welfare concerns. Scientific outputs from the Branch underpin government policy on livestock production, welfare and the environment. Key outputs from the branch include high impact peer review publications, technical reports, conference articles and presentations as well as knowledge transfer events and articles. The branch works closely with the levy bodies and the College of Agriculture, Food and Rural Enterprise to ensure scientific advances are communicated to practitioners. In addition, the Livestock Production Sciences Branch provides analytical services for livestock feedstuffs, manures and agri-food products for DAERA and the agri-food sector.

The branch has key links with the Centre for Innovation Excellence in Livestock (CIEL). AFBI is a full academic member of CIEL, a UK industry led consortium of academia and industry whose main aim is to increase the competitiveness of the UK Livestock industry through collaborative research and development. AFBI’s membership of CIEL has brought substantive investments in precision technologies to the farm platform across dairy, beef, sheep and pig.

The successful candidate will join AFBI’s Animal Welfare Research Team. This team currently consists of several researchers and PhD students and conducts research on the welfare of all farm animal species. It collaborates closely with the pig, dairy, beef and sheep units of the Livestock Production Sciences Branch, as well as with industry stakeholders and the NI government. The research programme of the Animal Welfare Research team has a core funding element through the Department of Agriculture, Environment and Rural Affairs (DAERA).

**AGRI-ENVIRONMENT BRANCH (AEB)**

The Agri-Environment Branch is one of seven Branches within the Sustainable Agri-Food Sciences Division in AFBI, meeting the global challenges of food security and sustainable intensification. The aims of the Branch are to develop and sustain an integrated research effort with national and international recognition on nutrient management within agricultural systems, focusing particularly on the needs of Northern Ireland, thereby

- developing sustainable practices within a competitive industry
- providing a scientific basis for government policy and
- enhancing the quality of the environment.
Environmental research in the Branch addresses land and nutrient management issues to make appropriate and efficient use of resources, while protecting the environment. The integrated research effort covers the impact of agriculture on air, soil and water quality. The outputs of this research have provided much of the scientific basis for the development of the Action Plan for Northern Ireland to comply with the Nitrates Directive and Derogation, Phosphorus Regulations and Water Framework Directive. The Branch undertakes basic, strategic and applied research for DAERA and other government departments and agencies, as well as commercial organisations. Research programmes are in place within the Branch to address the issues of nitrogen efficiency, phosphorus losses, water quality, soil quality, nutrient management planning, climate change and greenhouse gas emissions and aquatic ecology.
KEY RESPONSIBILITIES

The successful candidate will work within the livestock production sciences and agri-environment branches, conducting research on multiple aspects of pig welfare and productivity (e.g., behaviour, health, physiology, growth). Furthermore, they will study the effects of outdoor pig production on the environment (soil structure and biological and physicochemical properties, biodiversity, vegetation cover, pig-tree interactions).

The successful candidate will disseminate the results of this research through scientific and popular articles and presentations and collaborate with academic partners included in the overarching international research project ONEWELPIG.

The successful candidate will report to the Senior Scientific Officer leading the LPSB Animal Welfare Unit (Stephanie Buijs). Further supervision will be provided by Rodrigo Olave (AEB) and Ramon Muns (LPSB Monogastric Unit).

The main duties of the post will be to:

1. **Manage and deliver research studies**

   The successful candidate will manage and conduct a research project on alternative pig production systems. The project contains two trials: in the first trial pigs will be integrated into an agroforestry system (studying the effects of tree density on paddock quality and thus pig welfare and environmental impact). This trial will be carried out at AFBI’s agroforestry site at Loughgall. The second trial in the project will focus on the effect of different bedding materials on pig welfare kept in intensive conditions. This trial will be carried out at AFBI’s test facility in Hillsborough.

   The work will include preparation of valid and reliable experimental protocols, accurate collection and collation of research data, statistical analysis, and interpretation of results. Especially the first trial will require the successful candidate to collect and process scientific data on several aspects of pig welfare, productivity and environmental impact. This will require expertise on a wide variety of topics, but where the successful candidate has insufficient experience with some aspects the supervision team will aid in creating valid protocols and data interpretation. The duties also include responsibility for overseeing the housing and wellbeing of the pigs and interacting with animal care staff to ensure that conditions are optimal. Furthermore, duties include presenting research findings to a range of audiences including farmers, technical representatives, scientists and funders. This also includes the creation of written publications (press releases, scientific abstracts and peer reviewed scientific papers).
2. **To collaborate with other research/industry groups**

The project is a part of the larger project ONEWELPIG, which is carried out by a team of scientists from Teagasc, Queen’s University Belfast, University College Dublin, and AFBI. The ONEWELPIG projects’ steering group contains academics and sector representatives from the island of Ireland and the EU. The successful candidate will interact and collaborate with these people and where appropriate form linkages to other groups.

3. **To supervise students**

To (co)supervise or tutor BSc/MSc students involved in the research projects through thesis or placement work.

*This list is not exhaustive and the successful candidate will be required to carry out other duties as allocated by management.*
JOB DESCRIPTION

There is currently one 21 month, full time vacancy. A reserve list will exist and will be held for a period of 12 months from the date of interview, to cover any further Fixed Term vacancies which may arise.

Salary

Salary will be within the range £32,328 - £33,459 which pay increases will be on an incremental basis provided staff performance reports are satisfactory.

Starting salary will normally be at the minimum of the scale except for existing AFBI staff for whom starting salary may be determined by either promotion or re-grading terms if these are more favourable.

Annual Leave

In addition to the usual public and privilege holidays, there is an annual leave allowance of 25 days, increasing to 30 after five year’s satisfactory service.

Working Hours

The successful candidate will normally be required to work 5 days each week, totalling 37 hours. On occasion the duties may include some evening and weekend working. AFBI operates a flexi working system.

Location

The successful candidate will be based at AFBI Hillsborough, Co. Down BT26 6DR or AFBI Loughgall, Co. Armagh, BT61 8JB. On occasion, they may also be expected to work at other sites in Northern Ireland as required.

Travel

The post entails some travel throughout Northern Ireland, including rural areas not easily accessible by public transport and for this reason the successful candidate must hold a full current driving licence. If this is a foreign licence requiring exchange and/or a driving test for continued use in Northern Ireland, the successful candidate will be required to do so once appointed.

Medical

The post holder will be required to participate in field trials involving livestock and should therefore be aware of the requirement to work in animal accommodation with large animals. The successful candidate will be asked to complete a health declaration questionnaire and may be invited to attend a medical examination in to confirm sufficient fitness to carry out the duties of the post.
Training

Appropriate training will be provided, where required, to enable the successful candidate to carry out the full range of assigned duties.

Probation

The post holder will serve 12 months probation in the new post. This will commence from the date of appointment. At the end of the probation period a formal review will be conducted to determine if the posting will continue.

Further Information

Applicants wishing to learn more about the post before deciding to apply may telephone 028 9025 5060 or email at: Workforceplanning@afbin.gov.uk.

If you have any questions about the competition process, you should contact HRConnect on 0800 1 300 330 or email recruitment@hrconnect.nigov.net
ELIGIBILITY CRITERIA

Applicants must, by the closing date for applications, have:

1. A PhD in agriculture, animal science, veterinary science or relevant biological science, either awarded or submitted for external examination by closing date;

   **\small AND**

2. Demonstrable experience in conducting scientific studies on farm animals;

   **\small AND**

3. At least 1 years’ demonstrable experience of working with pigs;

   **\small AND**

4. Demonstrable experience in statistical analysis and interpretation of scientific data;

   **\small AND**

5. Proven ability to be the lead author of at least 1 paper in a peer-reviewed scientific journal*;

   **\small AND**

6. Demonstrable experience of presenting to a range of audiences (e.g., farmers, industry, scientists);

   **\small AND**

7. A full driving licence that is valid in the issuing country. If this is a foreign licence requiring exchange and/or a driving test for continued use in Northern Ireland, the successful candidate will be required to do so once appointed. AFBI will not reimburse any costs associated with this**.

---

* Candidates must also submit a fully cited bibliography (authors, paper title, journal title, volume, page numbers) of all their publications. Candidates can provide this information within the application form, or if necessary, send it by the closing date for applications to: recruitment@hrconnect.nigov.net. The bibliography should be marked with the relevant competition reference number (IRC286598), competition title and the candidate’s full name.

** Information on validity and exchange of driving licences can be found on: [https://www.nidirect.gov.uk/articles/exchanging-your-foreign-driving-licence](https://www.nidirect.gov.uk/articles/exchanging-your-foreign-driving-licence) and [https://www.nidirect.gov.uk/articles/advice-foreign-driving-licences-northern-ireland](https://www.nidirect.gov.uk/articles/advice-foreign-driving-licences-northern-ireland).
Applications will also be considered from applicants with relevant formal qualifications considered by the selection panel to be of an equivalent or higher standard to those stated.

**Relevant** or **equivalent** qualifications: give the type of qualification and date awarded (the date awarded is the date on which you were notified of your result by the official awarding body). If you believe your qualification is equivalent to the one required, the onus is on you to provide the panel with details of modules studied etc so that a well-informed decision can be made.

**SHORTLISTING CRITERIA**

A sift of all application forms received will be carried out by the appointed selection panel to assess each applicant against the eligibility criteria. The selection panel will reach a decision as to whether or not an applicant meets each criterion on the basis of the evidence provided on their application form. This will be completed on a scored basis for criteria 2 – 6 with a minimum score set for each criterion. Only those applicants assessed as meeting all essential criteria will be eligible to proceed to the next stage of the selection process.

In case of a high volume of applicants the institute may decide to limit the number of applicants it invites for interview in a proportionate manner. In this instance all applicants who meet the essential requirements will be listed in merit order according to their total score and the highest scoring applicants will proceed to interview.

**Please note:**

- You should ensure that you provide evidence of your experience in your application form, giving length of experience, examples and dates as required.
- It is not sufficient to simply list your duties and responsibilities.
- The panel will not make assumptions from the title of the applicant’s post or the nature of the organisation as to the skills and experience gained.
- If you do not provide sufficient detail, including the appropriate dates needed to meet the eligibility criteria, the selection panel will reject your application.
- ONLY the details provided by you in your application form (the employment history and eligibility criteria) will be provided to the selection panel for the purpose of determining your eligibility for the post.
- Further information on the Core Competences for this grade can be accessed through [www.nicsrecruitment.org.uk](http://www.nicsrecruitment.org.uk)
PERSON SPECIFICATION

Candidates will be expected to demonstrate the skills and competencies set out in the eligibility criteria. In addition, they will also be required to demonstrate the skills and competencies set out in the Northern Ireland Civil Service (NICS) competency framework at Level 3 for the purposes of personal and professional development.

Higher Scientific Officer is analogous to Staff Officer in the NICS.

What is the NICS competency framework?

The competency framework sets out how all NICS employees should work. It puts the Civil Service values of integrity, honesty, objectivity and impartiality at the heart of everything they do, and it aligns to the three high-level leadership behaviours that every civil servant needs to model as appropriate to their role and level of responsibility: Set Direction; Engage People and Deliver Results. Competencies are the skills, knowledge and behaviours that lead to successful performance. The framework outlines ten competencies, which are grouped into three clusters. The competencies are intended to be discrete and cumulative, with each level building on the levels below i.e. a person demonstrating a competency at level 3 should be demonstrating levels 1 and 2 as a matter of course.

The Northern Ireland Civil Service competency framework can be accessed through www.nicsrecruitment.org.uk

It is important that all candidates familiarise themselves with the competency framework as this forms the basis of the assessment / interview criteria as outlined below.
INTERVIEW CRITERIA

In addition to satisfying the eligibility criteria applicants will also be expected to display the following qualities and skills at interview:

1. Professional Knowledge and Skills
   - Demonstrates knowledge and understanding of techniques used within pig research to better understand pigs’ welfare and environmental impact
   - Applies knowledge and skills in the collection, collation, and manipulation of scientific data

   **Marks Available: 40  Minimum Standard: 24**

2. Leading and Communicating
   - Demonstrates the ability to listen to, understand, respect and accept the value of different views, ideas and ways of working
   - Demonstrates the ability to communicate effectively with others in English, both orally and in writing

   **Marks Available: 10**

3. Collaborating and Partnering
   - Demonstrates the ability to proactively seek information and support from a diverse range of people

   **Marks Available: 10**

4. Delivering at Pace
   - Demonstrates the ability to regularly monitor progress against milestones or targets and to act promptly to keep work on track and maintain performance

   **Marks Available: 10**
5. Making effective decisions

- Demonstrates the ability to invite challenge and, where appropriate, involve others in decision making to help build engagement and present robust recommendations.

Marks Available: 10

Total marks available: 80
Overall pass mark: 48 (60%)

COMPETENCE BASED INTERVIEWS

Selection panels will design questions to test the applicant’s knowledge and experience in each of the above areas and award marks accordingly.

INTERVIEWS

It is intended that interviews for this post will take place during week commencing Monday 30th January 2023.
INTERVIEW GUIDANCE FOR APPLICANTS

If this is your first experience of a competence-based interview, bear in mind that it does not require you to:

• Talk through previous jobs or appointments from start to finish;
• Provide generalised information as to your background and experience; or
• Provide information that is not specifically relevant to the competence the question is designed to test.

A competence-based interview does however require you to:

• Focus exclusively, in your responses, on your ability to fulfill the competences required for effective performance in the role; and
• Provide specific examples of your experience in relation to the required competence areas.

In preparation for the interview you may wish to think about having a clear structure for each of your examples, such as:

• Situation – briefly outline the situation;
• Task – what was your objective, what were you trying to achieve;
• Action – what did you actually do, what was your unique contribution;
• Result – what happened, what was the outcome, what did you learn.

The panel will ask you to provide specific examples from your past experience in relation to each of the competences. You should therefore come to the interview prepared to discuss in detail a range of examples which best illustrate your skills and abilities in each competence area. You may draw examples from any area of your work / life experiences.
SELECTION PROCESS

The Merit Principle

Appointments to AFBI are made under the ‘merit principle’, where the best person for any given post is selected in fair and open competition.

Making your application

The application form is designed to ensure that applicants provide the necessary information to determine how they meet the competition requirements and the eligibility/shortlisting criteria.

Guidance for Applicants

- We will not accept CVs, letters, additional pages or any other supplementary material in place of or in addition to completed application forms.
- Information in support of your application will not be accepted after the closing date for receipt of applications.
- HRConnect will not examine applications until after the closing deadline;
- Do not use acronyms, complex technical detail etc. Write for the reader who may not know your employer, your branch or your job.
- State clearly your personal involvement in any experience you quote. State “I” statements e.g. I planned meetings, I managed a budget, I prepared a presentation. It is how you actually carried out a piece of work that the panel will be interested in.
- The examples you provide should be concise and relevant to the criteria. This is very important as the examples which you provide may be checked out at interview and you may need to be prepared to talk about these in detail if you are invited to interview. It is your unique role the panel are interested in, not that of your team or division.

Application Form Submission

You can apply online at www.nicsrecruitment.org.uk.

- Please refer to the Candidate Information Booklet before completing an application.
- All parts of the application form must be completed by the applicant before this application can be considered. Failure to do so may result in disqualification.
• Only the employment history, eligibility and shortlisting sections will be made available to the panel.

• When completing the online application, your information is saved as you move through the pages. You may leave the application at any time, providing you have clicked on the 'Save & Continue' button. Once your application has been submitted the option to edit will no longer be available.

• Please note - the session timeout for the online application is 40 minutes, if you do not save or change page within this time you will automatically be logged out and any unsaved work will be lost.

• Please do not attempt to reformat application forms as this will result in disqualification.

**Changes in personal circumstances**

Please ensure HRConnect are informed immediately of any changes in personal circumstances.

**Communication between HRConnect and you**

HRConnect will issue electronically as many competition communications as possible, you should therefore check your email account to make sure that you don’t miss any important communications in relation to this competition. There may, however, still be a necessity to issue some correspondence by hard copy mail.

**Transgender Requirements**

Should you currently be going through a phase of transition in respect of gender and wish this to be taken into consideration in confidence to enable you to attend any part of the assessment process please contact HRConnect. Details of this will only be used for this purpose and do not form any part of the selection process.

**Further appointments from this competition**

Where a further position in AFBI is identified which is considered broadly similar to that outlined in this candidate information booklet, consideration will be given to filling the position from this competition. The merit list resulting from this competition will be valid for a period of up to one year.

**Disability Requirements**

We will ask on the application form if you require any reasonable adjustments, due to disability, to enable you to attend any part of the assessment process. Details of any disability are only used for this purpose and do not form any
part of the selection process. If you have indicated on your application that you have a disability and are successful in the selection process and are being considered for appointment, you may be required to outline any adjustments you consider necessary in order for you to take up an appointment. If you wish to discuss your disability requirements further, please contact HRConnect.

**Equal Opportunity Monitoring Form**

Please note, this form is regarded as part of your application and failure to complete and return it will result in disqualification.

For guidance on completing the Monitoring Form and to read the NICS Equal Opportunities Policy Statement to which AFBI adheres please refer to page 26.

Applications are particularly welcomed from Roman Catholics and Females as these groups are currently under-represented within AFBI.

**AFBI is an Equal Opportunities Employer.**

All applications for employment are considered strictly on the basis of merit.

**Assessment Information**

It is HRConnect policy that all candidates invited to attend for assessment bring sufficient documentation to satisfy the eligibility/shortlisting criteria and the Nationality and Vetting requirements. Further details regarding acceptable documentation will be issued with an invitation to attend for assessment.

You should ensure that these documents are readily available.

**Employment Requirements**

HRConnect must ensure that you are legally entitled to work in the United Kingdom.

Entry to the United Kingdom is controlled under the Immigration Act 1971. Everyone who does not have the right of abode is subject to immigration control. You should check whether there are any restrictions on your stay or your freedom to take or change employment before you apply for a post. If you are invited to interview we will ask you to provide documentation confirming that you are entitled to work in the UK, under the terms of the Asylum and Immigration Act 1996.

Advice on entitlement to work may be obtained from the Home Office website, www.ind.homeoffice.gov.uk.
**Nationality Requirements**

There are no nationality requirements for AFBI posts.

**Vetting Procedures**

1. Baseline Personnel Security Standard

For this post the level of vetting is a Baseline Standard. For this check you will be required to provide the following:

a) Your passport *OR*

b) A document verifying your permanent National Insurance number (e.g. P45, P60 or National Insurance card) *AND* your birth certificate which includes the names of your parents (long version).

c) Other acceptable documents are listed on www.ind.homeoffice.gov.uk.

d) A specimen signature at any assessment event and have this validated against passport, driving licence, application form etc.

We will organise a Criminal Record Check on all applicants to be carried out by AccessNI through Experian. HRConnect will provide your details to Experian who will undertake this check. The category of AccessNI check required for this post is:

**Basic Disclosure Certificate**

You should not put off applying for a post because you have a conviction. We deal with all criminal record information in a confidential manner, and information relating to convictions is destroyed after a decision is made. Further information regarding policy on the recruitment of ex-offenders and the vetting process is available at www.nicsrecruitment.org.uk in Recruitment Policy and Procedures manual.

Security Policy for AccessNI Disclosure Information is available at www.nicsrecruitment.org.uk under Useful Information.

The AccessNI code of practice can be accessed via www.nidirect.gov.uk/accessni

For more information, the address of the AccessNI website is: http://www.accessni.gov.uk/. Those applicants who are being considered for appointment will be contacted by HRConnect, normally after interview/test, and will be asked to complete the AccessNI application form. Please note that a request to complete this form should not be seen as a guarantee of an offer of appointment. Failure to complete the application form and return it within the specified time will be regarded as ‘no longer interested in the position’ and your application will be withdrawn.
Criminal Record information is subject to the provisions of the Rehabilitation of Offenders (NI) Order 1978.

The selection panel will assess candidates against the interview criteria. Those candidates who meet the required standard(s) and pass mark will be deemed suitable for appointment. The selection panel will then list those suitable for appointment in order of merit with the highest scoring applicant ranked first. HRConnect will allocate a candidate (or candidates) to a vacancy (or vacancies) in the order listed. The order of merit is valid for one year.
GENERAL INFORMATION

Pensions

New entrants who join the Agri-Food and Biosciences Institute (AFBI) are eligible to join the NICS pension scheme.

Further details can be found on the Civil Service Pensions (Northern Ireland) website at:

https://www.finance-ni.gov.uk/landing-pages/civil-service-pensions-ni

or

if you are unable to access the website please contact Civil Service Pensions as follows:

Civil Service Pensions
Waterside House
75 Duke Street
Londonderry
BT47 6FP
Tel: 02871 319000
Email: cspensions.cpg@dfpni.gov.uk

Feedback

AFBI is committed to ensuring that the processes used to recruit and select staff are fair. We are consequently committed to providing feedback in respect of decisions taken in determining eligibility/shortlisting as well as at interview. Feedback in respect of eligibility/shortlisting will be communicated automatically to those candidates who fail to satisfy any criteria. All requests for feedback are welcome.

Equality, Diversity and Inclusion

Policy Statement

The Northern Ireland Civil Service Equality, Diversity and Inclusion Policy statement to which AFBI adheres is set out below:

“The Northern Ireland Civil Service (NICS) has a strong and clear commitment to equality, diversity and inclusion. It is our policy that all eligible persons shall have equal opportunity for employment and advancement in the NICS on the basis of their ability, qualifications and aptitude for the work. Everyone has a right to equality of opportunity and to a good and harmonious working environment and atmosphere where they are treated with dignity and respect. We aim to provide opportunities for all sections of the community and continue to strive to create an inclusive working environment in which difference is recognised and valued. Bringing together people from diverse backgrounds and giving each person the opportunity to contribute their skills and experience will help us to respond more effectively to the needs of the people we serve”.

We all want to work in an harmonious workplace where we feel valued, respected and included, irrespective of gender, including gender reassignment, marital or civil partnership status, race/ethnic origin, religious belief or political opinion, disability, having or not having dependants, sexual orientation and age.

In order to provide a high quality service to the people of Northern Ireland the NICS needs to attract, recruit, develop and retain the very best people at all levels. Our approach is based on three key principles:-

**Equality** – we promote equality of opportunity by seeking to remove barriers, eliminating discrimination and ensuring equal opportunity and access for all groups of people.

**Diversity** – we accept each person as an individual. Our success is built on our ability to embrace diversity – and we believe that everyone should feel valued for their contributions. By working together we will deliver the best possible service for our staff, customers and stakeholders.

**Inclusion** – we create a working culture where differences are not merely accepted, but valued; where everyone has the opportunity to develop in a way that is consistent with, and adheres to NICS values of impartiality, honesty, integrity and objectivity. Our aim is to be an organisation where people feel involved, respected and connected to our success.

It is the responsibility of all staff to be aware of and to apply this policy. Both Management and Trade Union Side are fully committed to the policy and will endeavour to ensure its full implementation.
Equal Opportunities Monitoring

Equality monitoring is the process of collecting, storing and analysing information that is relevant to and necessary for the purpose of promoting equality of opportunity between different categories of persons. This section sets out what information is collected, the reasons for doing so and what it is used for.

You should note that the Monitoring Form is regarded as part of your application and failure to fully complete and return it will result in disqualification. The Monitoring Form will be processed separately and neither the form nor the details contained in it will be available to those considering your application.

Monitoring equality and diversity in the workforce enables the NICS to examine how our employment policies and processes are working and to identify areas where these appear to be impacting disproportionately on certain groups of staff.

Legislative Context
This section explains the reasons for gathering this information by setting out the legislative background.

Gender
The Sex Discrimination (NI) Order 1976 (as amended) makes it unlawful to discriminate against an individual on the grounds of his or her sex. Information on gender is also provided in the annual statutory monitoring the, as required by the Fair Employment and Treatment (NI) Order 1998. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between men and women generally.

Age
The Employment Equality (Age) Regulations (NI) 2006 make it unlawful for employers and others to discriminate on grounds of age. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons of different ages and age groups.

Community Background
The Fair Employment and Treatment (NI) Order 1998 outlaws discrimination on the basis of religious belief or political opinion. The Order also requires the NICS to submit an annual monitoring return to the Equality Commission for Northern Ireland. This takes the form of a statistical return, providing information on the gender and community background composition of all people working in the NICS at the 1st January each year.

Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote
equality of opportunity between persons of different religious belief and political opinion. Following guidance issued in July 2007 by the Equality Commission for NI the NICS has decided to use “community background” information as a proxy for political opinion.

Disability
The Disability Discrimination Act 1995 (the DDA) provides protection for disabled persons against discrimination on the grounds of disability.

The DDA defines disability as a “physical or mental impairment, which has a substantial and long term adverse effect on a person’s ability to carry out normal day-to-day activities.”

This definition is interpreted as follows:-

Physical Impairment: this includes, for instance, a weakening of part of the body (eyes, ears, limbs, internal organs etc) caused through illness by accident or from birth. Examples would be blindness, deafness, paralysis of a leg or heart disease.

Mental Impairment: this includes mental ill health and what is commonly known as learning disability, and social functioning.

Substantial: put simply, this means the effect of the physical or mental impairment on ability to carry out normal day to day activities is more than minor or trivial. It does not have to be a severe effect.

Long-term adverse effect: the effect has to have lasted or be likely to last overall for at least 12 months and the effect must be a detrimental one. A person with a life expectancy of less than 12 months is of course covered if the effect is likely to last for the whole of that time.

A normal day to day activity: this is something which is carried out by most people on a fairly regular and frequent basis such as washing, eating, catching a bus or turning on a television. It does not mean something so individual as playing a musical instrument to a professional standard or doing everything involved in a particular job.

What sort of effect must there be?
The person must be affected in at least one of the respects listed in the DDA: mobility; manual dexterity; physical co-ordination; continence; ability to lift, carry or otherwise move everyday objects; speech; hearing or eyesight; memory or ability to concentrate, learn or understand; ability to take part in normal social interaction and form social relationships; or perception of risk of physical danger.

What happens if the effects are reduced by medication or other treatment?
Broadly speaking, the effects that matter are those that would be present if there was no medication or treatment taking place. The exception is people
who wear spectacles or contact lenses when what matters is the effect that remain while the spectacles or contact lenses are being used.

**Are there any types of condition covered by special provisions in the DDA?**
Yes, because some people with particular conditions might not otherwise be counted as disabled. These are provisions covering:
- Recurring or fluctuating conditions such as arthritis, where the effects can sometimes be less than substantial, which are treated as continuing to have a substantial adverse effect so long as that effect is likely to recur;
- Conditions which progressively deteriorate, such as motor neuron disease, which count as having a substantial effect from the first time they have any effect at all on ability to carry out normal day to day activities even if it is not substantial, so long as there is eventually likely to be a substantial adverse effect; and
- People with cancer, HIV, or multiple sclerosis are deemed to be disabled people from the point of diagnosis, regardless of whether or not they have any symptoms.

**Are any conditions not covered?**
Yes, the following conditions specifically do not count as impairments:
- Addiction to or dependency on alcohol, nicotine or any other substance (unless resulting from the substance being medically prescribed);
- Seasonal allergic rhinitis (e.g. hay fever) unless it aggravates the effect of another condition;
- Tendency to set fires, or steal, or physically or sexually abuse other persons;
- Exhibitionism and voyeurism;
- Severe disfigurements consisting of tattoos, non-medical body piercing or attachments to such piercing are not treated as having substantial adverse effects.

**What if someone has recovered from a disability?**
Much of the DDA also applies to people who have had a disability in the past (for example, someone who was disabled by mental ill health) but have now fully recovered. People who were registered disabled under the Disabled Persons (Employment) Act (NI) 1945 both on 12 January 1995 and 2 December 1996 will be regarded as having had a disability in the past if they do not in any case fall within the definition of the DDA.

Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons with a disability and persons without.

**Race**
The Race Relations (NI) Order 1997 makes it unlawful to discriminate on grounds of colour, race, nationality or ethnic or national origin. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons of different racial group(s).
**Sexual Orientation**

The Employment Equality (Sexual Orientation) Regulations (NI) Order 2003 makes it unlawful for employers and others to discriminate on the grounds of sexual orientation. In order to monitor the effectiveness of NICS policies information is gathered on sexual orientation. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons of different sexual orientation.

**Marital Status**

The Sex Discrimination (NI) Order 1976 (as amended), makes it unlawful to discriminate against married persons and civil partners in employment. Section 75 of the Northern Ireland Act 1998 requires public authorities in carrying out their functions in NI to have due regard to the need to promote equality of opportunity between persons of different marital status.

**Dependants Status**

Section 75 of the Northern Ireland Act 1998 requires public authorities, in carrying out their functions in NI, to have due regard to the need to promote equality of opportunity between persons with dependants and persons without.

**Confidentiality of Monitoring Information**

The following general principles will be applied to all individual monitoring information:

- individual monitoring information will be afforded a high degree of confidentiality;
- misuse of monitoring information will be viewed as a disciplinary offence; and
- individual monitoring information will only be disclosed to members of staff or officials of a trade union, members of which are employed in the NICS, if it is necessary to do so for the appropriate discharge of their duties and responsibilities.

In addition to the above internal safeguards on the protection of equality monitoring information generally, the confidentiality of community background monitoring information is protected through Regulations made under the Fair Employment and Treatment (Northern Ireland) Order 1998 (FETO). These make it a criminal offence, subject to specific exceptions, for an employer or employee to disclose information on the community background of an individual which has been obtained, or is used, for the purpose of monitoring under FETO.

As with other forms of personal data, the obtaining, use, storage and disclosure of monitoring information is covered by the Data Protection Act 1998 (DPA). Monitoring information is held on computer and is protected by a
high level of security. Access to this data is restricted to those NICS staff, employees of HRConnect and Trade Union officials whose duties make it necessary for them to have it. Misuse of monitoring information is viewed as a disciplinary offence.
